Altura: Who we are

With over 12 years of combined experience across the UK and the UAE, Altura Property Group was built from first-hand experience as both brokers and investors. We understood the frustrations clients often face, a lack of transparency, inconsistent service, poor communication, and missed opportunities. We knew there had to be a better way.

At Altura Property Group, we believe buying, selling, or investing in property should feel exciting, rewarding, and effortless. As a trusted real estate partner in Abu Dhabi, we combine expert market insight with a personal, hands-on approach built on integrity, transparency, accountability, and ethical practice.

These values shape every part of our business, from how we serve clients to who we hire and how we lead. Every member of our team shares the same commitment to excellence, honesty, and consistency, allowing us to deliver a trusted experience at every stage.

Whether you are searching for a home, building an investment portfolio, selling at the right time, or seeking long-term property guidance, we provide tailored advice and strategic support designed around your goals.

We are not just agents. We are strategic partners with a shared mission: to elevate the real estate experience, one client at a time.

Now Operating in Dubai

Following our growth in Abu Dhabi, Altura Property Group is proud to now extend its services into Dubai, one of the world's most dynamic and internationally recognised real estate markets.

Dubai offers incredible opportunity, from luxury waterfront residences and branded developments to high-yield investment communities and established family neighbourhoods. However, with so many developers, projects, payment plans, and agents in the market, clients need more than listings they need honest advice and clear guidance.

That is where Altura adds value.

We bring the same principles that shaped our Abu Dhabi presence into Dubai: transparency, ethical guidance, strong communication, and a client-first approach. Our goal is to help clients make informed decisions based on their lifestyle needs, financial goals, and long-term strategy.

Operating across both Abu Dhabi and Dubai allows us to provide a broader UAE real estate perspective. Whether you are relocating, investing, buying, selling, or comparing opportunities across both markets, Altura is positioned to support you with clarity and confidence.

Our move into Dubai is not just an expansion of location. It is an expansion of our commitment to raise the standard of real estate service across the UAE.

Why Choose Altura?

The Boutique Agency Advantage

Our boutique structure allows us to deliver a more personal, refined service. Clients benefit from sharper local insight, faster decision-making, and tailored marketing strategies built around each property. We prioritise meaningful relationships, direct accountability, and data-backed advice - combining personal care with professional precision.

Western Approach to Real Estate

We operate with a Western standard of practice, grounded in transparency, ethics, and professional structure. With expertise across Abu Dhabi and now Dubai, we provide clear communication, full disclosure, and a duty of care throughout every transaction. This approach builds lasting trust and protects all parties with fairness and integrity.

Trusted Team Expertise

Our associates are fully licensed, highly knowledgeable, and deeply connected across the UAE. With strong expertise in Abu Dhabi and a growing presence in Dubai, clients benefit from insider market knowledge, strong community relationships, and access to high-quality opportunities that larger firms often overlook.

Extensive Marketing Resources

Our marketing approach is highly customized, combining bespoke strategies tailored to your property with professional photography, videography, and premium exposure across major portals and social media. We run targeted local and international campaigns on platforms like Meta and Google to reach qualified buyers. From curated open houses to data-driven advertising, we don't just aim for reach — we aim for the right audience.

Existing Local and International Client Base

Over the years, we have built a strong network of local and international clients who trust us with their real estate needs. Our relationships span private investors, corporate tenants, homeowners, landlords, and end-users from across the globe. Now operating across Abu Dhabi and Dubai, our reach allows us to market properties to a wider, highly qualified audience. When you list with Altura, you gain access to a client base and professional network we have spent years cultivating.

Expert, Accurate Valuation Software

At Altura, we use advanced data platforms to support smarter pricing, valuation, and investment decisions across the UAE. In Abu Dhabi, we leverage Quanta for real-time market data, while in Dubai, we use DXB Interact to access transaction insights, community performance, and market trends.

Together, these tools help our team provide faster, more accurate advice so clients can price confidently, invest strategically, and make informed decisions.

Strong, Reliable Administrative Team

Our dedicated administrative professionals manage every detail with accuracy and discretion, ensuring a smooth and well-organised process from start to finish. Alongside them, our skilled marketing team delivers tailored campaigns that maximise visibility and present your property in its best light. Together, they form the foundation that enables our agents to focus entirely on achieving the best outcome for you.
